

Organized by IA/PEL Joint Chapter and PES Chapter
Supported by IEEE Singapore Section

Digital Power leading to Smart Grid 2.0

? Discussions

- What is smart grid and Grid 2.0 ? Why do we need it ?
- How is energy is managed by consolidating gas, solar and thermal energy into a single intelligent network ?
- Does it involve too much data-analytics to make it resilient ?

👥 Breakout takeaways for audience

- How is Singapore preparing for the grid of the future ?
- How is digital power leading to smarter grids of the future ?
- The challenges faced by the designers.
- Opportunities for fresh graduates and young professionals in this sector

Speakers:

Tan Teck Lee
Power Energy Society

Dr. Anshuman Tripathi
Programme Director, ERI@N

A/P Xu Yan
Asst Prof, NTU

Moderators

Dr. Anurag Sharma
Vice Chair, PES Chapter

Dr. Ravinder Singh
Chair, IA/PEL Joint Chapter
